

# State of the Art Publication and Data Analysis

We are collaborating with our members and partners to analyze all available data collected so far on the environmental performance of FSPs and the use of the Green Index to assess it.

So far **900+** assessments 2011-2019 all world regions

We target **1000 + !**

Constant updating, state of the art publication and yearly report  
For the benefit of all stakeholders

**Join us and share your information!**

We thank the  
data contribution  
from:

Additional **200+**  
assessments  
Already on the radar
